Controlled Equipment Description and Use

Provide a summary of the equipment your agency is requesting to purchase, including a description of the equipment, its reason for purchase/intended use, training on the use of such equipment, and how the equipment will be tracked, maintained, and stored.

This purchase is for a 2023 Armored Ford Transit T350 High Roof Dual Rear wheel Protector Van. The van will be armored with ballistic penetration for up to and including NIJ level III. The reason for purchasing this vehicle is to outfit our SWAT team with a armored and ballistic penetration vehicle.

The intended use of the vehicle is to transport SWAT team members to and from special risk operations and assist in housing some of the SWAT equipment necessary for high risk callouts. The vehicle will be maintained by our existing preventative maintenance rotation list completed by our own motor pool mechanics. The vehicle will be stored in a closed garage within a secure law enforcement facility/garage. SWAT team leaders will be responsible for maintaining equipment inventory and care of the vehicle monthly.

Training with the vehicle will occur monthly during scenario based utilization exercises. Training will also occur with each new team member(equipment familiarization training).
