Hello,

I am a little confused as to why we are being charged incremental fees for fire rescue protection. Am I incorrect to say that we pay thousands of dollars in taxes every year to cover these exact expenses? Given the current state of the economy and the hardships experienced by all during this pandemic I do not feel it is right to be charging hard working taxpayers for something that should have been paid out of the (almost \$8,000) in taxes my family pays to the city each year for our home. In any case, I do not approve of any increases in assessments and I hope you all will take this into consideration before assessing the people of Coconut Creek for MORE fees.

Sincerely,
