INPUT FROM RESIDENTS OF COCONUT CREEK

Kaniel Reuben, 4385 NW 45 Terrace, Coconut Creek, expressed his concerns about exiting the Coquina residential neighborhood and making a left-hand turn. He requested that a traffic signal be installed at the community entrance.

Annette Rose, 4402 NW 41 Place, Coconut Creek, stated that she was a board member for the Coquina Homeowner's Association. She was concerned with not having a traffic signal at the community entrance and commented that she had seen many accidents at that location. She also requested a pedestrian walkway for the students who cross the street at the Coquina entrance.

Howard Tafares, 4326 NW 42 Terrace, Coconut Creek, stated that he was a board member for the Coquina Homeowner's Association. He mentioned that there were a lot of accidents at the entrance to the community and that changing the traffic flow out of the community to a right turn only would not work. He spoke about speeding on Lyons Road and requested that a traffic signal be installed at the community entrance.

Istmenia Rader, 4365 NW 45 Terrace, Coconut Creek, stated that it was important to have a traffic signal installed at the Coquina community entrance for the safety of the community.

Stephanie Appert, 4282 NW 44 Terrace, Coconut Creek, spoke about the number of accidents on Lyons Road between Wiles Road and Cullum Road and relayed a recent incident of a motorcyclist who had been hit by a vehicle. She urged the Commission to take action, including a new traffic study, workshop to obtain resident input, better lighting, and a reduced speed limit in the area.

Assistant City Manager / Director of Sustainable Development Sheila Rose addressed the Commission and provided a brief history of the area, noting that the developer of Coquina was required to provide a bond for a quarter of the construction costs associated with installing a traffic signal and that the property owner across the street was responsible for the remaining costs. She noted that the section of Lyons Road was under Broward County's jurisdiction and that the City had been pursuing a signal with the County since 2015. She stated that the City conducted a traffic study in 2017 and that the results did not meet the County's criteria for installing a signal. Ms. Rose commented that she would meet with the residents to further explain the traffic signal thresholds.

Deputy City Manager Brooks announced that she received the assessed property value report from the Broward County Property Appraiser and noted that she would forward the report to the Commission. She wished everyone a happy 4th of July.

She visited the recycling center with Public Works Operations Manager Mike Heimbach and spoke about the contamination found in the recyclable materials. She suggested producing an educational video for the residents, showing the contamination and permissible recyclable materials. She mentioned that Broward County Sheriff Gregory Tony expressed interest in meeting with the City to discuss E911 dispatch services from the County. She noted that she did a ride-along with Senior Code Compliance Officer Briana Capone and commended her and the Code Enforcement Team for their efforts. Commissioner Rydell stated that he was not supportive of waiting for the County to make improvements to the regional dispatch communication system and was interested in continuing to pursue dispatch services with the City of Coral Springs. Commissioner Tooley was not in favor of staying with the County for dispatch services. Vice Mayor Sarbone discussed having an alternative available if an agreement with Coral Springs was not successful that would allow the City take over the operation of the dispatch center located in the City's Emergency Operations Center (EOC) building with City-employed supervisors and dispatchers. Consensus was given for City Manager Blasi to pursue the alternative option if necessary.
