Gentlemen,

The board would welcome you to the next meeting. It is scheduled for Monday, October 29 at 7:00. The meeting is held at the Regency Lakes Clubhouse. Please let me know who will be attending and I will leave your names at the gate house. Please let the gate attendant know you are here to see me and on my list.

Thank you,

Lennie Plazure

Good morning Adam,

Not to steal any of your lighting from your presentation, but I'm being asked, what type of industrial site will it become? Can you give me some information to pass along before the meeting and how long a presentation would you need?

Thank you,

Lennie Plazure

Lennie,

It was a pleasure speaking with you last week in regard to the site plan we are processing through Coconut Creek on the now vacant parcel to the east of Regency Lakes. As discussed, we'd like to meet with the association to show them what we are going to be developing so they are informed of what's going on adjacent to some of their properties.

Will you be able to add us to their monthly meeting as discussed in October?

Thank you,

Adam Vaisman

Subject: Meeting with Sawgrass Association

Brett , good talking. This email is to request a meeting with the above association to review our proposed industrial building on the vacant land currently owned by Food for the Poor.

It will be a class A, modern, institutional quality, multi tenant light industrial facility. It works well as we faced the shipping area north so its not visible from the Sawgrass Association parcel .

We are available all month of October and can meet at Zimmer or DR Horton or the Starbucks next door. Call me when they want to meet . 954 464 5354

Subject: New Project at 6401 Lyons Road

Abe,

I wanted to follow up on our conversation we had on September 25th about our project we're planning on building across the street from Winston Park, which would be on the west side of Lyons Road. Would it be possible to schedule a meeting with the residents who back up to Lyons so we can share our project with them? As mentioned, it would be about a 100,000 square foot, Class A warehouse building

that would be built to code. Also, as mentioned, we've built a lot in this area, and the building will be modern and contemporary in nature. We have an extensive landscape buffer to the east of the building, so the visibility from Lyons Road, as well as the backyards of the owners facing Lyons would be limited.

Please let me know how you want to proceed.

Thanks,

Adam Vaisman
