

**PETITION TO ESTABLISH
MAINSTREET AT COCONUT CREEK
COMMUNITY DEVELOPMENT DISTRICT**

BEFORE THE CITY COMMISSION OF THE CITY OF COCONUT CREEK, FLORIDA

**IN RE: PETITION TO ESTABLISH MAINSTREET AT COCONUT CREEK
COMMUNITY DEVELOPMENT DISTRICT**

Petitioner, GSR RE PARTNERS, LLC, a Florida limited liability company (“Petitioner”), hereby submits this Petition to the City Commission of the City of Coconut Creek, Florida (“City”), pursuant to the Uniform Community Development District Act of 1980, Chapter 190, Florida Statutes, to establish a Community Development District (the “District”) with respect to lands described herein. In support of this Petition, Petitioner states as follows:

1. **Location and Size.** The proposed District is located generally north of Sample Road, west of Lyons Road, south of Wiles Road and east of State Road 7, in the City and contains approximately 183.42 acres. The general location of the proposed District is shown on **Exhibit 1** attached hereto. The metes and bounds description of the external boundaries of the proposed District is set forth in **Exhibit 2** attached hereto. The real property within the external boundaries of the proposed District that will not be a part of the District is owned by Johns Family Partners, LLLP, a Florida limited liability limited partnership, whose address is 2609 NE 27 Avenue, Fort Lauderdale, Florida 33306, and who is also a landowner that has consented to the establishment of the proposed District and Home Depot U.S.A., Inc., whose address is 2455 Paces Ferry Road, Atlanta, Georgia 30339. Johns Family Partners’ excluded property is anticipated to be conveyed to the City for utilization as a civic center, which the District impact should be minor since the public roadways will be a part of the District and accessible to the civic center. Home Depot U.S.A., Inc.’s excluded property is a portion of an existing storm water lake, which the proposed District should not have any impact thereupon.

2. **Landowner Consent.** Attached hereto as **Composite Exhibit 3** is documentation constituting written consent to the establishment of the proposed District by the Landowners of

the real property to be included within the boundaries of the proposed District, which are the only non-governmental landowners whose land is to be included within the proposed District.

3. **Initial Governing Board.** The five (5) persons designated to serve as the initial members of the Board of Supervisors of the proposed District are as follows:

Stefanie Mogull, 200 E. Las Olas Blvd., Suite 1400, Fort Lauderdale FL 33301

Lauren Edwards, 1801 Federal Highway, Boca Raton FL 33432

Cory Ring, 2200 Butts Road, Suite 300, Boca Raton FL 33431

Landon Massel, 200 E. Las Olas Blvd., Fort Lauderdale FL 33301

Rick Stephano, 1801 Federal Highway, Boca Raton FL 33432

All of the above listed persons are residents of the State of Florida and citizens of the United States of America.

4. **District Name.** The proposed name of the proposed District to be established is Mainstreet at Coconut Creek Community Development District.

5. **Major Water and Wastewater Facilities.** Attached hereto as **Composite Exhibit 4** is a map showing the existing major trunk water mains, re-use water System, stormwater system, roadway network, sewer interceptors and outfalls currently in existence to serve the lands within the proposed District.

6. **District Facilities and Services.** Petitioner presently intends for the proposed District to participate in the funding and construction of the stormwater and surface water management system, water distribution system, wastewater collection system, roadway improvements (per the approved roadways plan), sidewalks, open spaces and associated landscaping, re-use water system for irrigation, public parking garage, and the Village Green/Lakeside Plaza (the "Improvements"). The proposed timetable for the construction of the Improvements is set forth in **Exhibit 5** attached hereto. The estimated costs of constructing the Improvements is set forth in **Exhibit 6** attached hereto. These are good faith estimates but are

subject to change. Actual construction timetables and expenditures will likely vary, due in part to the effects of future changes in economic conditions upon costs such as labor, services, materials, interest rates and market conditions.

7. **Future Land Uses.** The future general distribution, location and extent of public and private land uses proposed for the area within the proposed District by the future land use element of the City's Comprehensive Plan, Regional Activity Center (RAC) are shown on the future land use map as **Exhibit 7** attached hereto. The zoning district for the area within the proposed District is Planned Mainstreet Development District (PMDD).

8. **Statement of Estimated Regulatory Costs.** A statement of estimated regulatory costs prepared in accordance with the requirements of Section 120.541, Florida Statutes, is attached hereto as **Exhibit 8**.

9. **Petitioner and Authorized Agent.** Petitioner is a Florida limited liability company, registered to do business in the State of Florida, whose address is 1801 S. Federal Highway, Boca Raton, Florida 33432. Copies of all correspondence and official notices should also be sent to the authorized agent for Petitioner:

Ginger E. Wald, Esq.
Billing, Cochran, Lyles, Mauro & Ramsey, P.A.
515 E. Las Olas Boulevard, Suite 600
Fort Lauderdale, Florida 33301
Phone: 954-764-7150 / Fax: 954-764-7279
Email: gwald@bclmr.com

10. **Rights to be Granted the District.** Petitioner hereby requests that, in addition to the powers set forth in Section 190.012(1), Florida Statutes, the proposed District be granted the right to exercise all powers provided forth in Sections 190.012(1), (2)(a) and (d) and (3), Florida Statutes.

11. **Reasons for the Establishment of the District.** The Petition to establish Mainstreet at Coconut Creek Community Development District should be granted for the following reasons:

a. Establishment of the proposed District and all land uses and services planned within the proposed District are not inconsistent with any applicable elements or portions of the state comprehensive plan or local government comprehensive plan.

b. The area of land within the proposed District is part of a unified plan of development that has been or will be approved by the City. The land encompassing the District is of a sufficient size and is sufficiently compact and contiguous to be developed as one functional interrelated community.

c. The proposed District will be the best alternative available for delivering community development services and facilities to the area to be served without financially impacting persons residing outside the proposed District. Establishment of the proposed District in conjunction with a comprehensively planned community, as proposed, allows for a more efficient use of resources.

d. The community development services and facilities of the proposed District will be compatible with the capacity and use of the existing local and regional community development services and facilities.

e. The area to be served by the proposed District is amenable to separate special-district government.

WHEREFORE, Petitioner respectfully requests the City Commission of the City of Coconut Creek, Florida to:

A. Hold a public hearing to consider the establishment of Mainstreet at Coconut Creek Community Development District in accordance with the requirements of Section 190.005, Florida Statutes.

B. Adopt an ordinance pursuant to Section 190.005, Florida Statutes, granting this Petition and establishing Mainstreet at Coconut Creek Community Development District.

Respectfully submitted this 11 day of February, 2025.

EXHIBIT 3

AFFIDAVIT OF OWNERSHIP AND CONSENT TO ESTABLISHMENT OF THE
COCONUT CREEK COMMUNITY DEVELOPMENT DISTRICT

On this 17 day of December, 2024, David B. Auld, personally appeared before me, an officer duly authorized to administer oaths and take acknowledgements, who, after being duly sworn, deposes and says:

1. Affiant is a Manager of COCONUT CREEK VENTURES, LLC, a Florida limited liability company, the general partner of JOHNS FAMILY PARTNERS, LLLP, a Florida limited liability limited partnership (collectively "Owner").
2. The Owner is the owner of the following described property, to wit:
See Exhibit "A" attached hereto (the "Property")
3. Affiant hereby represents that Affiant has full authority to execute all documents and instruments on behalf of the Owner, including the Petition before the City Commission of the City of Coconut Creek, Florida, to adopt an ordinance to establish Mainstreet at Coconut Creek Community Development District (the "Proposed CDD").
4. The Property constitutes all of the real property of Owner to be included in the Proposed CDD.
5. Affiant, on behalf of the Owner, hereby consents to the establishment of the Proposed CDD.

JOHNS FAMILY PARTNERS, LLLP,
a Florida limited liability limited partnership

By: COCONUT CREEK VENTURES, LLC,
a Florida limited liability company, its general partner

STATEMENT OF ESTIMATED REGULATORY COSTS

STATEMENT OF ESTIMATED REGULATORY COSTS
Mainstreet at Coconut Creek Community Development District

1.0 Introduction

1.1 Purpose

This statement of estimated regulatory costs ("SERC") supports the petition to form Mainstreet at Coconut Creek Community Development District ("District" or "CDD") and other affiliated and participating companies ("Petitioner") that are planning a 183.42+/- acre mixed-use community ("Project"), generally located south of Wiles Road, west of Lyons Road, north of Sample Road and east of State Road 7 in the City of Coconut Creek, Florida ("City").

The District anticipates providing community infrastructure that will serve land in the proposed District. The proposed District plans to provide community infrastructure including, but not necessarily limited to, stormwater and surface water management system, water distribution system, wastewater collection system, roadway improvements, open spaces and associated landscaping, re-use water system for irrigation, public parking garage and the Village Green/Lakeside Plaza (the "Infrastructure"). The proposed District plans to finance the Infrastructure by issuing bonds ("Bonds") secured by, among other things, proceeds of non-ad valorem special assessments (the "Assessments") levied on land within the proposed District that will specially benefit from the Infrastructure all as discussed more fully below.

1.2 Scope of the Analysis

The limitations on the scope of this SERC are explicitly set out in Section 190.002(2)(d), *Fla.Stat.* (governing District formation or alteration) as follows:

"That the process of establishing such a district pursuant to uniform general law shall be fair and based only on factors material to managing and financing the service delivery function of the district, so that any matter concerning permitting or planning of the development is not material or relevant (emphasis added)."

As noted above, the proposed District anticipates providing Infrastructure and related services with operation and maintenance, to the 183.42+/- acres comprising the Project. The current development plan for the land contained in the proposed District is 484 townhomes/villas, 296 condominium units, 1,172 apartments, 78,417 square feet of commercial uses and a clubhouse.

1.3 Requirements for Statement of Estimated Regulatory Costs.

Section 120.541(2), F.S., defines the elements a statement of estimated regulatory costs must contain:

- (a) An economic analysis showing whether the rule¹ directly or indirectly:
 - 1. Is likely to have an adverse impact on economic growth, private sector job creation or employment, or private sector investment in excess of \$1 million in the aggregate within 5 years after the implementation of the rule;
 - 2. Is likely to have an adverse impact on business competitiveness, including the ability of persons doing business in the state to compete with persons doing business in other states or domestic markets, productivity, or innovation in excess of \$1 million in the aggregate within 5 years after implementation of the rule; or
 - 3. Is likely to increase regulatory costs, including any transactional costs, in excess of \$1 million in the aggregate within 5 years after the implementation of the rule.
- (b) A good faith estimate of the number of individuals and entities likely to be required to comply with the rule, together with a general description of the types of individuals likely to be affected by the rule.
- (c) A good faith estimate of the cost to the agency², and to any other state and local government entities, of implementing and enforcing the proposed rule, and any anticipated effect on state or local revenues.
- (d) A good faith estimate of the transactional costs likely to be incurred by individuals and entities, including local governmental entities, required to comply with the requirements of the rule. As used in this section, “transactional costs” are direct costs that are readily ascertainable based upon standard business practices, and include filing fees, the cost of obtaining a license, the cost of equipment required to be installed or used or procedures required to be employed in complying with the rule, additional operating costs incurred, the cost of monitoring and reporting, and any other costs necessary to comply with the rule.
- (e) An analysis of the impact on small businesses as defined by Section 288.703, *Fla.Stat.*, and an analysis of the impact on small counties and small cities as defined in Section 120.52, *Fla.Stat.* The impact analysis for small businesses must include the basis for the agency’s decision not to implement alternatives that would reduce adverse impacts on small businesses.

¹ For the purposes of this SERC, the term “rule” means the ordinance which the City of Coconut Creek will enact in connection with the establishment of the District.

² For the purposes of this SERC, the term “agency” means the City of Coconut Creek.

(f) Any additional information that the agency determines may be useful.

(g) In the statement or revised statement, whichever applies, a description of any regulatory alternatives submitted under paragraph (1) (a)[of Section 120.541, *Fla. Stat.*] and a statement adopting the alternative or a statement of the reasons for rejecting the alternative in favor of the proposed rule.

- 2.0 (a) An economic analysis showing whether the rule directly or indirectly is likely to (1) have an adverse impact on economic growth, private sector job creation or employment, or private sector investment in excess of \$1 million in the aggregate within 5 years after the implementation of the rule; (2) have an adverse impact on business competitiveness, including the ability of persons doing business in the state to compete with persons doing business in other states or domestic markets, productivity, or innovation in excess of \$1 million in the aggregate within 5 years after implementation of the rule; or (3) increase regulatory costs, including any transactional costs, in excess of \$1 million in the aggregate within 5 years after the implementation of the rule.**

It is unlikely the establishment/creation of the District will meet any of the triggers in Section 120.541(2)(a), *Fla. Stat.* The basis for this determination is provided in the discussions in Section 3.0 through Section 6.0 herein.

- 3.0 A good faith estimate of the number of individuals and entities likely to be required to comply with the rule, together with a general description of the types of individuals likely to be affected by the rule.**

As noted above, the proposed District will provide Infrastructure and related services to the 183.42+/- acres of land planned for the Project. The ultimate residential and commercial property owners in the District will be required to comply with District rules and their properties will be encumbered with District obligations to pay for Infrastructure and operation and maintenance expenses incurred by the District. Based on the current development program the entities and individuals would be affected by the formation of the District are the owners and occupants of the residential and commercial units within the District, estimated to include approximately 3,450 residents and 2 owners of the commercial properties. These numbers are only estimates and are subject to change.

- 4.0 Good faith estimate of the cost to the agency, and to any other state and local government entities, of implementing and enforcing the proposed rule, and any anticipated effect on state or local revenues.**

- 4.1 Costs to Governmental Entities of Implementing and Enforcing Rule**

State Governmental Entities

The cost to State entities to review or enforce the proposed rule will be very modest. The District comprises less than 2,500 acres. Therefore, the City will review and act upon the petition to establish the District.

There are minimal additional ongoing costs to various State entities to implement and enforce the proposed rule. The District is a special purpose unit of local government, and it is required to file various reports to the State of Florida, the Department of Economic Opportunity and other agencies of the State. The filing requirements include annual audit report, annual financial report and bond issuance report. However, the additional costs to the State and its various departments to process the additional filings from the District are very low, since the State routinely processes filings from over 500 similar districts. Finally, the current annual filing fee of \$175.00 paid by the District are designed to offset any additional costs to the State. Attached as Appendix A is a summary of reporting requirements by the District.

City of Coconut Creek

This petition to establish the District will require the City to review the petition and its supporting exhibits. In addition, the City will hold public hearing(s) to discuss the petition and to take public input. These activities will absorb staff time and time of the City Commission. The boundaries of the District are located within the City.

However, the costs of these activities are very modest at most for the following reasons. First, the review of this petition to establish the District does not include an analysis of the Project itself. In fact, such a review of the Project is prohibited by statute. Second, the petition contains all of the information necessary for its review. Third, the City already has all of the staff necessary to review the petition, or on contract with additional staff to assist. Fourth, no capital costs are involved in the review. Fifth, the City routinely processes similar petitions for land use and zoning changes that are far more complicated than this petition to form the District. Finally, Petitioner will pay all statutorily prescribed filing fees of \$15,000 which offsets all costs.

The City will incur only a small additional annual cost if this petition is approved. The proposed District is an independent unit of local government, so the District is responsible for its own budget, reporting, and the full conduct of its powers within its boundaries. The only annual costs the City faces are the minimal costs of receiving and reviewing the various reports that the District may be required to provide to the City, as may be requested by the City.

4.2 Impact on State or Local Revenues

Adoption of the proposed rule will have no negative impact on State or local revenues. The District is an independent unit of local government. It is designed to provide community facilities and services to serve the development. It has its own sources of revenue. While no State or local subsidies are required for the District, it is anticipated that the City will provide grant monies for some of the public infrastructure that the District intends to construct.

In this regard it is important to note that any debt obligations incurred by the District to construct its own infrastructure are not debts of the State of Florida or any other unit of local government except the District. By State law, debts of the District are strictly its own responsibility.

5.0 A good faith estimate of the transactional costs likely to be incurred by individuals and entities required to comply with the requirements of the rule

The District may provide Infrastructure and related services to the land in the District, as outlined in Table 1 below.

Table 1. Proposed Facilities and Services

| <i>Facility</i> | <i>Funded By</i> | <i>Operation and maintenance</i> | <i>Ownership</i> |
|--|------------------|----------------------------------|------------------|
| Stormwater/Surface Water Management System | District | District | District |
| Water Distribution System | District | City | City |
| Wastewater Collection System | District | City | City |
| Roadway Improvements | District | District | District/City |
| Open Space/Landscaping Improvements | District | District | District |
| Re-use Water System for Irrigation | District | District/City | District/City |
| Public Parking Garage | District | City* | City* |
| Village Green/Lakeside Plaza | District | City | City |

*It is anticipated that an agreement will be entered into between City and District.

Petitioner has estimated the costs for providing the Improvements as outlined in Table 1, and such costs are shown in Table 2. Total costs for this Infrastructure are estimated to be approximately **\$82,000,000**. To fund this construction program, in whole or in part, the District may issue Bonds, which will be repaid through non-ad valorem assessments levied on all lands in the District that benefit from the District's Infrastructure and related services as outlined in Table 1 (except for the portion of the funding for the Public Parking Garage issuance of Bonds which will be financed through an agreement with the City).

Table 2. Summary of Estimated Capital Costs

| <i>Infrastructure</i> | <i>Total</i> |
|--|---------------------|
| Stormwater/Surface Water Management System | \$15,499,835 |
| Water Distribution System | \$ 4,112,666 |
| Wastewater Collection System | \$ 8,497,365 |
| Roadway Improvements | \$20,676,542 |
| Open Space/Landscaping Improvements | \$11,500,509 |
| Re-use Water System for Irrigation | \$ 6,006,923 |
| Public Parking Garage | \$ 9,000,000 |
| Village Green/Lakeside Plaza | \$ 6,706,160 |
| Total | \$82,000,000 |

Prospective future landowners in the District may be required to pay non-ad valorem assessments levied by the District to secure the debt incurred through Bonds. In addition to the levy of non-ad valorem assessments for debt service, the District may also impose a non-ad valorem assessment to fund the operations and maintenance of the District and its facilities and services.

It is important to note that the various costs outlined in Table 2 are typical for developments of the type contemplated here. In other words, there is nothing peculiar about the District's financing that requires additional infrastructure over and above what would normally be needed. Therefore, these costs are not in addition to normal development costs. Instead, the facilities and services provided by the District are substituting in part for developer-provided infrastructure and facilities. Along these same lines, District-imposed assessments for operations and maintenance costs are similar to what would be charged in any event by a property owners' association common to most master-planned developments.

Real estate markets are quite efficient, because buyers and renters evaluate all of the costs and benefits associated with various alternative locations. Therefore, market forces preclude developers from marking up the prices of their products beyond what the competition allows. To remain competitive the operations and maintenance charges must also be in line with the competition.

Furthermore, locating in the District by new landowners is completely voluntary. So, ultimately, all owners and users of the affected property choose to accept the District's costs in tradeoff for the benefits that the District provides.

The District is an alternative means to finance necessary community services. District financing is no more expensive, and often less expensive, than the alternatives of a municipal service taxing unit (MSTU), a neighborhood association, or through developer bank loans.

6.0 An analysis of the impact on small businesses as defined by Section 288.703, Fla. Stat., and an analysis of the impact on small counties and small cities as defined in Section 120.52, Fla. Stat.

There will be no impact on small businesses because of the formation of the proposed District. If anything, the impact may be positive. This is because the District must competitively bid certain of its contracts. This affords small businesses the opportunity to bid on District work.

The development is located in the City. As of the 2020 Census date, the City has a population in excess of 10,000 people. Therefore, the proposed District is not located in a City defined as a “small city”, according to Section 120.52, *Fla. Stat.*.

7.0 Any additional useful information and description of regulatory alternatives.

The analysis provided above is based on a straightforward application of economic theory, especially as it relates to tracking the incidence of regulatory costs and benefits. Inputs were received from Petitioner’s Engineer and other professionals associated with Petitioner.

Finally, it is useful to reflect upon the question of whether the proposed formation of the District is the best alternative to provide community facilities and services to the Project. As an alternative to the District, the City could approve a dependent special district for the area, such as a special taxing district under Chapter 189, *Fla. Stat.* This alternative could finance the improvements contemplated in Table 1 in a fashion similar to the proposed District.

However, this alternative is inferior to the District. Unlike the District, the alternative would require the City to continue to administer the Project and its facilities and services. As a result, the costs for these services and facilities would not be sequestered to the land directly benefiting from them, as the case would be with the District.

A District also is preferable from a government accountability perspective. With a District as proposed, landowners and lessees in the District would have a focused unit of government under their direct control. The District would be more responsive to landowner needs without disrupting other City responsibilities.

Another alternative to the District would be for the developer to provide the Infrastructure and to solely use a property owners association (“POA”) for operation and maintenance of all the community facilities and services. In providing the Infrastructure set forth herein, the District provides a greater ability to obtain the needed funds to maintain the Infrastructure by the imposition and collection of its assessments along with other property taxes. Additionally, the proposed District is a unit of local government and must abide by all governmental rules and regulations. While a POA will be formed by the Developer, it will not be providing maintenance for Infrastructure.

APPENDIX A
LIST OF REPORTING REQUIREMENTS

| REPORT | FLORIDA STATUTES CITE | DATE |
|---------------------------------------|-----------------------------|---|
| Annual Financial Audit | 218.29 | 12 months after end of fiscal year |
| Annual Financial Report | 218.32 | within 45 days of financial audit completion, but no later than 9 months after end of fiscal year |
| TRIM Compliance Report | 200.068 | 30 days after adoption of assessment resolution |
| Form 1 - Limited Financial Disclosure | 112.3144 | by July 1 |
| Public Depositor Report | 280.17 | by November 30 |
| Proposed Budget | 190.008 | sixty (60) days prior to adoption of final budget |
| Final Budget | 190.008 | by October 1 |
| Public Meetings Schedule | 189.015 | quarterly, semiannually, or annually |
| Bond Report | 218.38 | When issued |
