Subject: City Board Position - Environmental Advisory Board
Attachments: Gallagher.Daniel.Resume.pdf

Good evening,

My name is Daniel Gallagher, and I submitted an application for a city board position in person during the final session of Citizen's Academy.

I have attached my resume to this email per the application requirements.

I am a recent graduate from the University of Florida (UF), where I received a BS degree in environmental engineering, and I am currently working as a staff engineer with Earth Systems, Inc. We focus on groundwater and soil rehabilitation that has been contaminated with petroleum impacts.

While at UF, I learned a great deal about the major issues facing our environment as well as to human and public health, and received inside and outside knowledge/experience on how to effectively tackle these problems. My senior design project at UF involved an assessment of a rural area in Mexico's waste management practices. After taking waste audit data, my team and I designed a best waste management system, where I spear headed a composting program.

I am keenly aware of our planet's greatest environmental challenges, and I want to help be a driving part of the change we need to see happen.

Thank you for your consideration for this position. I am available for any questions and follow-up you may need. My contact is listed below as well as in my resume. Have a great rest of your weekend!

Best,
Daniel Gallagher | Staff Engineer with Earth Systems Inc.
