Deputy City Attorney Mehaffey read the Ordinance title into the record.

**MOTION:** Welch/Rydell – To approve Ordinance No. 2025-014 on first reading.

Public Works Director Harry Mautte presented the item, noting that the amendment would allow Verizon Wireless to modify the equipment on the City's telecommunication tower at Lakeside Park, which would not substantially increase the loading factor on the tower and would take place within the existing leased space on the ground. He stated there was no rent increase associated with the modification as the rent had increased with the first amendment.

Commissioner Brodie noted the telecommunication tower at Winston Park had issues that needed to be addressed. Mr. Mautte provided an update on work with the contractor to correct issues with the tower. Commissioner Brodie stated the project at Lakeside Park was fine, as it would remain within the existing footprint. He asked if staff had verified that Kimley-Horn had reviewed the application, and Mr. Mautte confirmed.

There were no questions or comments from the public on the item.

There were no further questions or comments from the public.

Commissioner Brodie suggested the City needed to look at the grant parameters for schools, asserting that Neighborhood Enhancement Grant funds should be used for things like butterfly gardens, and signage should be addressed through the school’s budget or the City’s non-profit donation process through the PTA. He commented that schools receive separate tax dollars.

Vice Mayor Wasserman stated he did not believe Coconut Creek High School had an electronic marquee.

Commissioner Rydell highlighted that Tradewinds Elementary School Principal Dr. Priscille Elie was present. He stated he was supporting the investment in schools but believed there were more creative ways to reach people. Dr. Elie thanked the Commissioners for their support and noted the amazing things taking place at the school. She stated the marquee would reflect the improvements inside the school on the outside of the school and would be used for marketing.

Commissioner Welch commented that she watched the messages at the other schools that had electronic signs, and noted the schools were included in the grant guidelines because they were part of the neighborhood as well.

Mayor Railey stated she supported this grant application because it was important that the schools within the City reflect the City itself, and the children needed to have pride in the way their school looked and operated so they would want to excel.

**Upon roll call, the Resolution passed by a 5-0 vote.**

(SECOND READING)(PUBLIC HEARING)

Deputy City Attorney Mehaffey read the Ordinance title into the record.

**MOTION:** Welch/Rydell – To adopt Ordinance No. 2025-007.

Finance and Administrative Services Director Peta-Gay Lake presented the item, noting this second hearing would adopt changes to the City's method for adjusting the Water and Wastewater Utility Rates on an annual basis. She stated that since First Reading of the ordinance, staff further evaluated the rates and distributed a more detailed financial analysis. She highlighted that the City's actual costs, based on contractual agreements with Broward County, had outpaced the current formula. She noted the ordinance proposed two (2) key changes to address the deficiencies in the current formula, including adjusting the annual rate increases based on the blended rate increase set by Broward County from the prior year and shifting the effective date of the annual increase from April 1 to June 1. She noted the Utility Fund was a self-sustaining enterprise fund, with rates set to recover the full cost of operations. She stated staff was recommending a nine percent (9%) increase to take effect June 1 consistent with the County's nine percent (9%) increase that took effect October 1, 2025. She shared staff's varied community outreach efforts to educate the community. She clarified that the ordinance provided for an automatic increase up to the amount of the County increase if approved; and if the Commission wanted to consider a lower rate, it would require approval by resolution at the next meeting.

Commissioner Welch stated the Budget Input meeting turnout was disappointing, but the social media blitz and phone calls had been effective as education. She commented on the projections and stated anticipated changes in Fiscal Year 2027 needed further review. Ms. Lake advised that future periods would be reevaluated as new numbers were provided.

Commissioner Rydell asked if nine percent (9%) was the highest possible increase under the current ordinance. He stated he would support a higher increase now and no increase in future years, but that was not an option. He noted that while Broward County had anticipated this increase and was passing it on to the City, there was legislation being considered at the State level that could result in a reduction. He commented that effective communication mattered. He highlighted messaging from Police Chief Fred Hofer and stated similar messaging was needed for water.

Discussion ensued briefly regarding the planned Broward County water infrastructure upgrades. Mayor Railey asserted that at this point in time, the Commission could only consider the known factor of a nine percent (9%) increase this year. She stated she believed there would be less impact on the residents to make the increase at this time. City Manager Rose advised that this was consistent with the staff recommendation. She noted the expectation was that a rate study would be conducted once the automated meter project was completed in 2027.

Commissioner Rydell asked how quickly rates could be adjusted in the event of a dramatic reduction. Ms. Lake stated an update to the ordinance and resolution would be required upon evaluation of the changes. Commissioner Rydell asked that staff update the Commission on future developments.

Commissioner Welch stated it was her understanding that Coconut Creek was the only municipality to get its water from Broward County. City Manager Rose confirmed Coconut Creek was the only large user on the Broward County water system. Discussion continued regarding the impacts of Broward County's adoption of the PFAS requirements.

Mayor Railey opened the public hearing. There were no questions or comments from the public on the item, and Mayor Railey closed the public hearing.

**Upon roll call, the Ordinance passed by a 5-0 vote.**

## **CITY MANAGER REPORT**

City Manager Rose stated it had been a treat at the Arbor Day tree planting ceremony to have a tree planted in her honor. She reported that a DOGE letter from the Office of the Governor had been received on April 22, and it was being treated as a public records request. She stated significant records were being requested, along with a request that the Commission consider a resolution of support. She shared that Coconut Creek Elementary School had been officially renamed to the Coconut Creek K-8 Academy of Excellence. She highlighted a memo distributed regarding public art options for a Holocaust sculpture and asked that the Commission review its contents and provide feedback on the opportunities identified.

## **CITY ATTORNEY REPORT**

Deputy City Attorney Mehaffey reminded the Commission to reach out to her if they had any questions before City Attorney Pyburn's return to the office on Monday.

## **COMMISSION COMMUNICATIONS**

Commissioner Rydell recognized his wife on their 15<sup>th</sup> wedding anniversary. He thanked the legislative team for continuing updates on the State Legislative Session. He stated the public art project should be done right, or not at all, and noted the City had done a good job on Veterans' Park. He provided a brief update on the Solid Waste Authority, noting they were on the cusp of a full plan and stated he would be sharing a presentation on what he had learned about open market bidding for waste hauling. He stated he was looking forward to the free tree giveaway.

Commissioner Welch highlighted Administrative Professionals Day and stated the City was filled with wonderful people who kept everyone organized. She stated he was sad to hear that Assistant Fire Chief

Kevin Sullivan was leaving the Fire Rescue Department and recognized his efforts to build the First Responder Behavioral Health Access Program (BHAP). She recognized the Police Department for a job well done. She commented that the Do the Right Thing Award Ceremony was the best 30 minutes of the month and suggested a change in the ceremony start time to 6 p.m. She suggested a future discussion on mini bikes and e-bikes in the City's parks and noted she would like to see data on incidents and observations from Park Rangers.

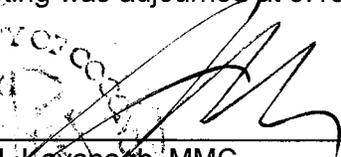

Commissioner Brodie thanked Commissioner Welch for reaching out during his father's recent illness. He shared his joy in meeting his new grandson.

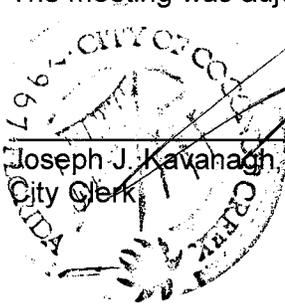

Vice Mayor Wasserman commented on the Sustainability Lecture Series and recognized the organizers for their creativity. He agreed with Commissioner Rydell's earlier comments regarding social media and stated he had suggested a staff member be tasked with content creation for City content to increase engagement.

Mayor Railey thanked City Manager Rose for bringing the Arbor Day Free Tree Give Away to Coconut Creek twenty-five (25) years ago and congratulated her on her tree. She congratulated the Citizens' Academy graduates and recognized the overwhelming expertise present in the City. She shared items made from recycled items and stated she hoped the Drive Safe vehicle could be brought to the City so that every high school student could experience it. She noted House Bill 913 had passed regarding financing condominium reserves.

**ADJOURNMENT**

The meeting was adjourned at 9:18 p.m.
