**Subject: Vacation Easement Justification – Existing West 12' Utility Easement
Lyons Exchange Center
Coconut Creek, FL
City Project No. 18080001
CWI Project # 8281**

Dear Ms. Aguiar,

We respectfully request approval to vacate the existing 12' Utility Easement located along the Western portion of the proposed Lyons Exchange Center project.

The abandonment of this existing utility easement should be approved based on the following:

- 1). The Owner has contacted Utility locates, and their site visit showed no existing utilities within this easement.
- 2). We have attached the resolutions and easement documents which were previously approved by the City.
- 3). There is an existing 8" water main located within these easements. The City has requested that this line be abandoned and relocated.
- 4). The abandonment and relocation of this existing line, has been shown on the submitted water and sewer plan. Easements have also been shown for the proposed facilities.

We appreciate your cooperation, and approval of this request.

Sincerely,
Caulfield & Wheeler, Inc.

John F. Wheeler, P.E.

EXISTING 12' WESTERN UTILITY EASEMENT ABANDONMENT PACKAGE

PREPARED BY:
CAULFIELD & WHEELER, INC.
7900 GLADES RD, SUITE 100
BOCA RATON, FL 33434

April 2nd, 2019

City of Coconut Creek Development Services
6401 Lyons Rd
Coconut Creek, FL 33073
Re: Lyons Exchange Center West Portion

Per your request, FPL has no objection to the proposed easement abandonment for Lyons Exchange Center with these stipulations.

It appears FPL does have several locations with existing overhead and underground facilities that serve or are adjacent to the existing site.

Should any FPL facilities need to be removed or relocated, then the applicant will pay for the total costs of any relocation or replacement of those FPL facilities as deemed necessary by FPL or requested by the applicant. Additionally, the applicant will pay for any costs associated with any relocation of FPL facilities due to requests to relocate any overhead facilities to underground, new turn lanes, de-acceleration lanes, road right-of-way vacations etc.

FPL will require a complete set of plans prior to construction. These would include site, civil, landscape, and electrical. As the FPL engineering, design, and construction process encompasses about a six to eight month schedule it is imperative that complete plans be provided well in advance of construction.

For the new construction project planned for this site the customer will need to provide any additional easement requirements needed by FPL. These easements will be provided by instrument and will be provided prior to construction or installation of FPL facilities.

If I can be of assistance feel free to contact me at 954-956-2022 my fax is 954-956-2020.

Sincerely,

Nicholas Panzo
Associate Engineer

RE: Abandonment of 12' Utility Easement
Lyons Exchange Center
6401 Lyons Road
Pompano Beach, FL 33073

From: TECO Peoples Gas

To whom it may concern:

Thank you for contacting TECO Peoples Gas Company regarding abandonment of utility easement at the above referenced address. After reviewing the documents provided, TECO-PGS has NO objection to this abandonment. In addition, TECO-PGS currently has no utilities in the area of this property.

If you have further questions, please do not hesitate to call.

Sincerely,

Good Morning Doug,

Per our newly received DRC comments #3 attached here, the only HOLD on our Western Easement Abandonment for Site Plan Approval process is the pending Letters of No Conflict for any future use from all affected utilities, including Comcast.

Please let me know who I need to speak with to get this letter accomplished.

Address: 6401 Lyons Rd, Coconut Creek, FL
