Question and Answers

Question No. 1: Can the City please explain what information they are looking for in the needs testing?

Response No. 1: The City is looking for an overall vehicle count and number of vehicles that are exceeding the posted speed limit in excess of the 10 MPH threshold.

Question No. 2 How many school zones are in state right of ways? And will the 14-day permitting timeline be the same for state and county right of way usage?

Response No. 2 This response only pertains to the City of Plantation. There are 2 school zones located within the state ROW. The remaining school zones are either in Broward County or City ROW.

Question No. 3: Are the camera's referenced in a) above the Speed Detection Device cameras, ALPR cameras, or is it your expectation that both be used for this purpose?

Response No. 3: Please explain the firm's ability to operate as speed detection cameras with integrated ALPR capabilities, however, the primary focus of this project is school speed cameras

Question No. 4: During what hours do you expect the live streaming video feeds to be available?

Responses No. 4: During authorized enforcement periods. If the law, now or in the future, allows the Police Department to utilize this capability outside of enforcement periods, the City would request the capability to livestream at all times in compliance with the law.

Question No. 5: Is it your expectation that the ALPR and video system capabilities will be available 24/7, 365 days per year?

Response No. 5: Yes, if permitted by law now or in the future.

Question No. 6: Are you of the opinion that the services listed above in a) and b) do not conflict with the language of Florida Statute 316.1896(15) which reads: (a) A speed detection system in a school zone may not be used for remote surveillance. (emphasis added)"... "Recorded video or photographs collected as part of a speed detection

systems in a school zone may only be used to document violations of ss. 316.1895 and 316.183 and for purposes of determining criminal or civil liability for incidents captured by the speed detection system. (emphasis added)”

Response No. 6: This is a new law and it is expected that future case law will provide further clarification as to what constitutes “remote surveillance” and permitted uses of the system for incidental crimes captured by the system. The City of Plantation intends to comply with all statutes and future case law regarding this system.

Question No. 7: Should any of the services requested by City be found to be in violation of Florida Statute 316.1896, will the City indemnify firm from any legal action resulting from the violation?

Response No. 7: The City intends to comply with all laws at all times. The City will not indemnify Firm from any legal action resulting from any violation. Firm shall comply with the Law, and ensure the system offered is operating in compliance with the Law.

Question No. 8: - Do you intend to permit the use of separate ALPR and video camera systems, or is the plan to utilize the speed enforcement system as both an ALPR and video system?

Response No. 8: If permitted by law the City intends for the speed enforcement system to have ALPR capabilities that integrate with the above systems.

Question No. 9: Is it your expectation that the ALPR cameras in each location as noted in c) above will be separate and independent from the cameras used for speed detection as defined by the statute or are you of the opinion that the services listed above do not conflict with the language of Florida Statute 316.1896(15).

Response No. 9: If permitted by law the City would prefer the speed detection cameras to have ALPR capabilities. If not permitted then the City may request to install a separate ALPR camera utilizing the same infrastructure. This is a new law and it is expected that future case law will provide further clarification as to what constitutes “remote surveillance” and permitted uses of the system for incidental crimes captured by the system. The City of Plantation intends to comply with all statutes and future case law regarding this system.

Question No. 10: Is the stored footage referred to in a) above the stored footage of violation videos only or any footage recorded?

Response No. 10: Any video recorded pursuant to a lawful use.

Question No. 11: Does the footage need to be made accessible through any video management software or must it be through the LPR vendor currently being utilized by the Plantation Police Department? If the current vendor, what is the source in which the live video needs to feed into?

Response No. 11: Any video management software capable of being supported by City IT Department.

Question No. 12: While we would have no objection to the City adding additional equipment to the poles, adding additional equipment to the poles would require a new wind load/structural requirement. With that in mind, is the City going to handle engineering associated with modifications?

Response No. 12: Yes, the City will be responsible for any needed Engineering studies for any additional equipment added that was not part of the original plan.

Response No. 13: Yes, and Yes, the City can provide this information

Question No. 14: Do the camera's need to be connected to or controlled by the flashing light systems installed currently? If so, who would be required to provide updated changes to school zone times?

EXHIBIT “G”

(Federal Bureau of Investigation
Criminal Justice Information Services
Security Addendum)

FEDERAL BUREAU OF INVESTIGATION
CRIMINAL JUSTICE INFORMATION SERVICES
SECURITY ADDENDUM

The goal of this document is to augment the CJIS Security Policy to ensure adequate security is provided for criminal justice systems while (1) under the control or management of a private entity or (2) connectivity to FBI CJIS Systems has been provided to a private entity (contractor). Adequate security is defined in Office of Management and Budget Circular A-130 as “security commensurate with the risk and magnitude of harm resulting from the loss, misuse, or unauthorized access to or modification of information.”

The intent of this Security Addendum is to require that the Contractor maintain a security program consistent with federal and state laws, regulations, and standards (including the CJIS Security Policy in effect when the contract is executed), as well as with policies and standards established by the Criminal Justice Information Services (CJIS) Advisory Policy Board (APB).

This Security Addendum identifies the duties and responsibilities with respect to the installation and maintenance of adequate internal controls within the contractual relationship so that the security and integrity of the FBI's information resources are not compromised. The security program shall include consideration of personnel security, site security, system security, and data security, and technical security.

The provisions of this Security Addendum apply to all personnel, systems, networks and support facilities supporting and/or acting on behalf of the government agency.

1.00 Definitions

1.01 Contracting Government Agency (CGA) - the government agency, whether a Criminal Justice Agency or a Noncriminal Justice Agency, which enters into an agreement with a private contractor subject to this Security Addendum.

1.02 Contractor - a private business, organization or individual which has entered into an agreement for the administration of criminal justice with a Criminal Justice Agency or a Noncriminal Justice Agency.

2.00 Responsibilities of the Contracting Government Agency.

2.01 The CGA will ensure that each Contractor employee receives a copy of the Security Addendum and the CJIS Security Policy and executes an acknowledgment of such receipt and the contents of the Security Addendum. The signed acknowledgments shall remain in the possession of the CGA and available for audit purposes. The acknowledgement may be signed by hand or via digital signature (see glossary for definition of digital signature).

3.00 Responsibilities of the Contractor.

3.01 The Contractor will maintain a security program consistent with federal and state laws, regulations, and standards (including the CJIS Security Policy in effect when the contract is executed and all subsequent versions), as well as with policies and standards established by the Criminal Justice Information Services (CJIS) Advisory Policy Board (APB).

4.00 Security Violations.

4.01 The CGA must report security violations to the CJIS Systems Officer (CSO) and the Director, FBI, along with indications of actions taken by the CGA and Contractor.

4.02 Security violations can justify termination of the appended agreement.

4.03 Upon notification, the FBI reserves the right to:

- a. Investigate or decline to investigate any report of unauthorized use;
- b. Suspend or terminate access and services, including telecommunications links. The FBI will provide the CSO with timely written notice of the suspension. Access and services will be reinstated only after satisfactory assurances have been provided to the FBI by the CGA and Contractor. Upon termination, the Contractor's records containing CHRI must be deleted or returned to the CGA.

5.00 Audit

5.01 The FBI is authorized to perform a final audit of the Contractor's systems after termination of the Security Addendum.

6.00 Scope and Authority

6.01 This Security Addendum does not confer, grant, or authorize any rights, privileges, or obligations on any persons other than the Contractor, CGA, CJA (where applicable), CSA, and FBI.

6.02 The following documents are incorporated by reference and made part of this agreement: (1) the Security Addendum; (2) the NCIC 2000 Operating Manual; (3) the CJIS Security Policy; and (4) Title 28, Code of Federal Regulations, Part 20. The parties are also subject to applicable federal and state laws and regulations.

6.03 The terms set forth in this document do not constitute the sole understanding by and between the parties hereto; rather they augment the provisions of the CJIS Security Policy to provide a minimum basis for the security of the system and contained information and it is understood that there may be terms and conditions of the appended Agreement which impose more stringent requirements upon the Contractor.

6.04 This Security Addendum may only be modified by the FBI, and may not be modified by the parties to the appended Agreement without the consent of the FBI.

6.05 All notices and correspondence shall be forwarded by First Class mail to:

CERTIFICATION

I hereby certify that I am familiar with the contents of (1) the Security Addendum, including its legal authority and purpose; (2) the NCIC Operating Manual; (3) the CJIS Security Policy; and (4) Title 28, Code of Federal Regulations, Part 20, and agree to be bound by their provisions.

I recognize that criminal history record information and related data, by its very nature, is sensitive and has potential for great harm if misused. I acknowledge that access to criminal history record information and related data is therefore limited to the purpose(s) for which a government agency has entered into the contract incorporating this Security Addendum. I understand that misuse of the system by, among other things: accessing it without authorization; accessing it by exceeding authorization; accessing it for an improper purpose; using, disseminating or re-disseminating information received as a result of this contract for a purpose other than that envisioned by the contract, may subject me to administrative and criminal penalties. I understand that accessing the system for an appropriate purpose and then using, disseminating or re-disseminating the information received for another purpose other than execution of the contract also constitutes misuse. I further understand that the occurrence of misuse does not depend upon whether or not I receive additional compensation for such authorized activity. Such exposure for misuse includes, but is not limited to, suspension or loss of employment and prosecution for state and federal crimes.
