Subject: Cancellation of Cook Out

Good afternoon Regency Lakes,

It is with the utmost regret I have to inform everyone the planned cook out has been cancelled by the City.

We were advised about an hour ago, this is used as a platform for City Commissioners to use as a means of politicking. When we were advised of this, we requested this not be used for political gain, but rather as we were told it would be, a community event for the police and fire to present safety issues.

Apparently there is no such thing as a free lunch and since the potential for political gain was not mentioned when this was presented, the City refused to acknowledge our concerns and the City has cancelled the event.

Thank you,

Lennie Plazure
