So sorry, I forgot to add my signature on my prior e-mail

Mayor, City Commission & City staff

I would like to express my gratitude for all that every single one of you do!

I would like to remind you of the City's Vision 2030.

It addresses: Several Key Focus's

A few of them being: Safety & Quality of Life, Smart Growth, Sustainable Environment.

Part of the "Smart Growth" I quote, " Means: Preserve character-defining features that make Coconut Creek unique. Maintaining our unique character & sense of place. Thriving and growing local, unique & creative businesses."

Development in any location of our city affects our entire city.

I ask of you, commission, please keep this in mind prior to amending codes, changing code of ordinance & rezoning.

With gratitude,

Alene Smith
