

**CITY OF COCONUT CREEK
BUSINESS IMPACT ESTIMATE**

1. Summary of Ordinance No. 2024-033:

This ordinance is to reduce the amount of single-use plastics and single-use plastic accessories, such as utensils and condiment packages distributed, to reduce waste and litter. The ordinance also requires that drinking straws be marine biodegradable as determined by the American Society of Testing Materials.

2. Estimate of the Direct Economic Impact of the proposed ordinance on private, for-profit businesses in the City:

a. An estimate of direct compliance costs that businesses may reasonably incur if the ordinance is enacted.

The additional cost of a straw that is marine biodegradable compared to a typical plastic straw is \$.01 per straw. Plastic straws are approximately \$.005 each and marine biodegradable straws are \$.015 each.

Single-use accessories on demand reduces business costs for these products. The savings will depend on the business and what is typically provided. Many restaurants have converted to self-serve stations, which are compliant with this ordinance.

b. Identification of any new charge or fee on businesses subject to the proposed ordinance or for which businesses will be financially responsible.

None.

c. An estimate of the City's regulatory costs, including an estimate of revenues from any new charges or fees that will be imposed on businesses to cover such costs.

Indeterminate based on compliance levels and enforcement priority.

3. A good faith estimate of the number of businesses likely to be impacted by the ordinance.

There are approximately 70 restaurants in the City of Coconut Creek.

4. Any additional information the City Commission may determine to be useful.

N/A
